# 5 AMENITIES

A photograph of three business professionals in a modern office environment. A man in a dark suit and tie stands on the left, facing a woman in a grey blazer and white shirt who is holding a white coffee cup. In the center, another man wearing glasses, a light blue shirt, and a dark vest also holds a white coffee cup and is engaged in conversation with the others. They are standing near a large window with a view of a city skyline. A green plant is partially visible in the foreground on the left.

# ECOEFICIENCIA

A<sup>111</sup> es líder en criterios de ecoeficiencia y sostenibilidad relativos al agua, energía, materiales, sistemas constructivos y la gestión de residuos.

Monitorización de consumos BMS

Ahorro en el consumo de agua global

Máximo aprovechamiento de iluminación natural

Alto aislamiento térmico

Gestión de residuos ENVAC

Placas fotovoltaicas

Más de 1.500m<sup>2</sup> de zonas verdes

Tratamiento diferencial entre fachadas según orientación

Iluminación LED

Climatización con producción DISTRICLIMA

Refrigerantes de bajo impacto medioambiental

Estación Transformadora eléctrica

Materiales de baja reflectividad y alta inercia (cerámica).

# ECO-EFFICIENCY

A<sup>111</sup> is a leader in eco-efficiency and sustainability standards related to water, energy, materials, construction systems and waste disposal.

BMS consumption monitoring

Savings in overall water consumption

Maximum use of natural light

High thermal insulation

ENVAC waste disposal system

PV solar panels

Over 1,500 sq. m of green spaces

Varied façade treatments according to orientation

LED lighting

DISTRICLIMA air conditioning

Air coolers with low environmental impact

Electric transformer station

Low-reflectance materials with high thermal inertia (ceramic)

# BIENESTAR

A<sup>111</sup> se compromete con el bienestar y cuidado de los usuarios, mediante un control exhaustivo en la calidad del aire de las oficinas, aplicando protocolos de limpieza e higienización de zonas comunes y monitorización de ocupaciones.

Fácil acceso urbano e interurbano

Luz natural en los puestos de trabajo

Vistas de calidad en todas los espacios

Acceso a terrazas desde todos las oficinas

Amplias zonas comunes interiores y exteriores

Alto nivel en la calidad del aire

Protocolos de higienización y limpieza

Optimización de ocupación en zonas comunes

Espacios de trabajo pet friendly

# WELLBEING

A<sup>111</sup> is committed to the wellbeing and care of users through close monitoring of air quality in offices, implementation of cleaning and hygiene protocols in common areas, and occupancy monitoring.

Easy urban and interurban access

Natural light at workstations

Excellent views in all spaces

Terrace access from all offices

Spacious indoor and outdoor common areas

High-quality air

Cleaning and hygiene protocols

Occupancy optimisation in common areas

Pet friendly offices

# SMART BUILDING

A<sup>111</sup> se pone a la cabeza de la transformación tecnológica en el 22@, siendo uno de los edificios más inteligentes de la zona. Con un sistema de control y monitorización de las instalaciones centralizado, innovando en la infraestructura de telecomunicaciones y conectividad digital. Pudiéndose conectar en todos los espacios comunes y privativos de A<sup>111</sup>, adaptándose a las nuevas formas de trabajar y estando por encima de la normativa actual.

Conectividad en cualquier lugar del edificio

Infraestructura común de telecomunicaciones

Control de accesos al edificio

Pórticos privativos con accesos electrónicos

Sistema de control y monitorización centralizado BMS

A<sup>111</sup> is leading the technological transformation of 22@ as one of the smartest buildings in the area. Featuring a centralised monitoring and control system, the facilities are innovative in terms of telecommunications infrastructure and digital connectivity. Users can connect from all the private and common areas of A<sup>111</sup>, adapting to new ways of working and exceeding current regulations.

Connectivity anywhere in the building

Common telecommunications infrastructure

Building access control system

Private gateways with electronic access

BMS centralised monitoring and control system
